## FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Thedford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day.

## STRIKE GOES ON AT Y. M. C. A.; 35 MEN IN WALKOUT

#### Plasterers, Carpenters and Bricklayers Decline to Continue Labor Because of Dispute With Beeman & Ayer,

The strike of the Y. M. C. A. building, forecasted yesterday, has gone into effect. About thirty-five men this morning declined to continue at work on the job because of a dispute between the plumbers and the plumbing contracting firm of Beeman & Ayer, which the union men call "unfair."

The dispute affects neither the Y. M. C. A. nor the general contractor, except that work is halted, the disagreement being with the plumbing firm and with others in the same line not holding contracts at the Y. M. C. A.

The dispute is based upon the refusal of Beeman & Ayer, Beauchamp & Dunbar and J. M. Vickrey, local plumbing contractors, to sign an agreement with the plumbers' union which provides, among other things, that the firms shall employ only local labor so long as there is any to be had. There is no disagreement over the other clauses of the agreement.

Y. M. C. A. officials say Mr. McQuade wished to emphasize that the strike was not directed at them in any way. The men on strike are carpenters, bricklayers and plasterers.

#### Interesting Fact

The Nashville, Chattanooga and St. Louis Railroad is the only one in captivity that has revolving, leather-upholstered, parlor-car seats in both its white and colored waiting-rooms. This is at Huntsville, Ala.

In about a week the backbone of winter will begin being broken at fortnightly intervals until about April 10th.

#### Spurring Event

In the recent exorcitation tournament at Chase's, Alabama, Ed. Black won the free-for-all standing broad by killing a fly at fifteen feet, three out of a possible three.

Anybody heard of 3-Oaks, Mich., lately?

We shouldn't be at all surprised any time now to find that three cents a mile was far too little for the railroads to charge and make money.

They sure are some reaches!

#### VALVE-IN-HEAD TYPE MOST EFFICIENT MOTOR AND GAS ECONOMIZER

With gasoline constantly ascending in price and descending in quality, it has become necessary for motorists to take steps to offset the disadvantages of expensive and inefficient fuel.

The Buick Motor company, almost alone of the automobile manufacturing concerns whose product is sold at a price within reach of the average man, has made a specialty of the carburetor question. The designers of the Buicks had an eye constantly to economy, when they designed this year a Buick sixes. They had the fuel question constantly in mind, and that their efforts bore fruit is proven by the abundant testimony from Buick users all over the country concerning the mileage obtained from the new Buick sixes.

N. M. Cudabae, Buick dealer in Albuquerque said today, "With gasoline at its present high price, the advantage of the Valve-in-Head type of motor is more pronounced. This motor, as is well known, conserves and uses a higher percentage of the energy contained in fuel than any other type of gasoline motor. The absence of valve pockets in this motor means that there is less heat to escape into the water jacketed area surrounding the cylinders, and as heat and power are one and the same thing in motor car operation it can very readily be seen that the Valve-in-Head motor bears a very direct relation to the pocket-book of the automobile user. And as the price of gasoline goes up this advantage of the Valve-in-Head type of motor becomes increasingly apparent."

In all types of motors except the Valve-in-Head there is an absolute waste of power, which means a waste of fuel, and this waste has been carefully computed by Buick engineers to be in the neighborhood of 15 to 20 per cent of the entire energy contained in gasoline.

"Hundreds of users of the five passenger Buick touring car have reported gasoline mileage averaging all the way from seventeen to twenty-three miles per gallon. This is exceptionally high. It is plain, therefore, that while little can be done toward keeping the price of gasoline down, these high prices can be offset, in a very large measure, by using the type of car which makes the utmost use of the fuel supplied. The higher gasoline is in price, the more important it is that as much power be derived from it as possible."

## STATE NATIONAL IS FIRST NEW MEXICO BANK TO QUALIFY FOR TRUST DUTIES

Certificate Received From the Federal Reserve Board This Morning Authorizes Action as Trustee, Executor, Etc.

#### ANNUAL MEETING CLOSES MOST PROSPEROUS YEAR

Flourishing Financial Institution Pays 24 Per Cent Dividends in 1915 and Sets Aside Large Sum to Stockholders Account.

Concurrent with announcements following the annual meeting of its stockholders, and the election of directors and officers for the coming year, the State National bank of Albuquerque this morning received from the federal reserve board at Washington a formal certificate authorizing it to act and perform the duties of trustee, executor, administrator and as registrar of stocks and bonds.

This authority, which gives to the State National virtually all the powers, facilities and opportunities for service of a trust company, is granted under subsection "K" of section 11 of the federal reserve banking act and is the first authorization of the kind to be given to a New Mexico bank by the federal reserve board. It means, in effect, that under due supervision of the federal reserve board, the State National may perform the functions of a trust company wherever such authority does not conflict with other provisions of the federal reserve banking act, or state law, and that the powers and opportunities of the bank for service to its customers have been very materially extended. President J. R. Herndon received the certificate of authority from the federal reserve board in this morning's mail.

Mr. Herndon announced this morning the re-election of all officers of the State National for the coming year, at the annual meeting held Tuesday afternoon, and the re-election of the same board of directors, with the addition to the board of Mr. H. R. Pollock of this city, one of the leading stockgrowers and shippers of the cattle. The official roster of the State National now stands as follows:

President, J. R. Herndon;  
Vice president, Jacob Korber;  
Vice president, Roy McDonald;  
Cashier, R. M. Merritt;  
Assistant Cashier, D. J. Arnold;  
Asst. Cashier, N. A. Bader.  
The directors are: R. R. Pollock; Jacob Korber, O. N. Marion, W. W. Strong, W. H. Springer, J. B. Herndon, Roy McDonald.

At the same time the annual meeting of the American Trust and Savings bank was held, resulting in the re-election of the same board of directors, with the addition of Mr. Pollock also to the board. The trust company's official roster is as follows:

President, J. R. Herndon;  
Vice president, Jacob Korber;  
Vice president, Roy McDonald;

Asst. Cashier, Robert T. Sewell;

Directors: Jacob Korber, R. R. Pollock, O. N. Marion, Roy McDonald, J. B. Herndon.

#### A Very Prosperous Year.

Reports of the officers to the annual meeting and resulting action by the directors, show the State National to have enjoyed the most prosperous year in its very prosperous and successful history, during 1915. During the year the bank declared dividends to its stockholders totalling 24 per cent, the best dividend record it has made thus far, and the directors also set a large amount to the credit of the stockholders' account.

"Our bank has enjoyed a very prosperous year," said Mr. Herndon this morning, "and we are duly appreciative of the normal business relations

maintained throughout the year with our customers. It has been a year of growth and solid expansion in which the officers, directors and stockholders take considerable pride. We look forward to an even more satisfactory year during 1916."

Mr. Herndon stated that the building plans of the State National had been delayed somewhat by the necessity of alterations in plans previously drawn for the enlargement of the present banking house. The cold weather, also, makes it difficult for the bank to attempt the extensive alterations and enlargements planned, without moving to a temporary banking room. Since this is undesirable the directors have determined to withhold the building plans until late spring when the changes contemplated may be carried out without disturbing the regular course of business.

#### PADILLA HERE ON WAY TO EL PASO; BROTHER-IN-LAW AMONG DEAD

Camillo Padilla, deputy state game warden, is here today on his way to El Paso to take charge of his brother-in-law, Manuel A. Romero, who was among those killed in the Santa Fe massacre.

Mr. Padilla was unable to add any facts to information already current about this affair.

#### Roswell Bank Clearings Large.

Roswell, N. M., Jan. 13.—Bank clearings for the first week in January were more than \$76,000 greater this year than for the corresponding period last year. In 1915 the figures were \$163,919.21; last week they were \$238,819.21.

## Even Our Competitors Admit That We Undersell Them

Here is one proof—and we could offer many others just as strong. A traveling salesman, selling a well-known line of merchandise called on us a day or so ago and after complimenting the appearance of our store, said, "I hear all along the line that you folks are doing a splendid business in Albuquerque. You know I sell a number of concerns in Albuquerque and they are hollering their heads off because I sell your concern. They say you fellows are crazy price-cutters, and if I continue to sell the Penney Co. they can't buy from me."

This is an old story to us, but thought we would sound him a little further and asked, "Well, what are you going to do about it?" He replied, "I'm going to continue to sell you as long as you will buy, for my sales to this concern amount to more than what the kickers all combined buy from me."

That's pretty strong proof, isn't that?

## We Do Sell For Less

We are going to give you another demonstration of this fact next Monday when we launch our sale of

## Household and Kitchen Needs

There isn't a home in Albuquerque that will not be benefited by this sale, no matter if you don't buy five cents' worth, you'll get the benefit indirectly—for it's common talk in Albuquerque that "some things have changed" since the Penney store came to town.

If you don't believe this talk of ours about selling for less you come for a look at our windows and, better still, come early Monday morning and see what we are selling in the way of every-day usefuls at prices heretofore unknown in this city.

Will Give \$500, With String to It, for Investigation of Mayor's Charges of Graft.

appropriation would "have a string in it."

This string would consist of a proviso that a committee of the council have charge of the expenditure of the money also was stated.

None of this, of course, could be substantiated from official sources but it is understood nevertheless to be the correct plan. The finance committee meeting was surrounded by a thick veil of gloomy silence last night, not even the city clerk attending the session, which was held in the mayor's office.

The committee also audited the quarterly bills.

Statements were made last night that no decision had been reached by the board and that none might be obtained for several days.

Abbie K. Leopold, in charge of game protection work for the forest service, returned last night from Santa Fe, where a game protection association recently was organized.

J. B. Herndon and J. Korber, officials of the State National bank, left this afternoon on No. 2 for Santa Fe.
